

REMARKS/ARGUMENT

The specification, including the abstract, has been replaced with a substitute specification and abstract.

The substitute specification is comprised of paragraphs of the original specification rearranged and reformatted consistent with current United States Patent and Trademark Office ("USPTO") practice.

The Title of the invention has been amended to a more descriptive one without inclusion of a trademark.

Claims 10-16 remain in the application. Claims 1-9 have been cancelled.

New claims 10-16 are written according to current USPTO practice. They are supported by enabling disclosure in the substitute specimen, and are definitely novel and nonobvious.

Applicant believes with these amendments that all requirements have been satisfied and respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

John J. Giblin, Jr. (Registration No. 51,313)
